1968–69 Georgetown Hoyas men's basketball team The 1968–69 Georgetown Hoyas men's basketball team represented Georgetown University during the 1968-69 NCAA Division I college basketball season. Tommy O'Keefe coached it in his first season, his third year as head coach. The Hoyas were an independent, and played their home games at McDonough Gymnasium on the Georgetown campus in Washington, D.C.. They were the East Regional champions of the 1969 NCAA Tournament. Season recap O'Keefe, who had guided the Hoyas to the 1964 NCAA Tournament, was promoted to head coach for the 1966-67 season. In his first season with the Hoyas, O'Keefe steered the team to two wins in the 1968-69 season opener and to a 9–6 record. The team's continued success prompted O'Keefe's hire as the head coach at George Washington University. Junior center/forward Paul Vathalis was the team captain and team leading scorer. He averaged 11.9 points per game, a point better than his 13.3 points per game in 1967-68. He was the leading scorer among

The application is compatible with a lot of formats and capable of processing a lot of files at once, this is a very useful utility that should be on your toolbox. I spent a good part of my day today using Video Rotate to rotate some video files into all sorts of different ways. Video Rotate has a very user friendly interface. It comes with a rather rugged and old school interface, but is quite intuitive and unlikely to cause any issues regardless of your experience with similar tools. I started using the program by first adding some video files into the program and selecting my preferred output. I had to select one format at a time, so a bunch of different files. I then went to the "Output settings" menu, which opens a list of output types. I selected the file type I wanted to save the video to, and the video was converted in a few seconds. I then went to the "Directories Settings" menu, and it opened the section of the menu you'd expect it to do, the settings menus. It gave me three choices for where to save the video file, which is a nice touch. I chose the "Select directory where the file will be saved" and pressed "OK". That's it, I now have a video in it's final location. No need to load the video and then save it, and no need to adjust the quality. No need to load the video and then save it, and no need to adjust the quality. And now you can watch your video in whatever orientation you like. Did I mention that it's user friendly? This app is almost perfect. There
