Modern Control Engineering 5th Edition Solution Manual Zip 1 .Q: What does "inked" mean? Can you show me an example of the usage of this verb "inked"? What does it mean? A: It has specific meaning, in writing, as in using pens, pencils, inks, and other marking methods to make a permanent mark on a medium. E.g. To ink a traditional tattoo means to apply a tattoo in this manner. EDIT: On the basis that you are looking for a real-world use of "inked" rather than looking up a synonym or an idiom, it can be applied to the colloquial meaning. E.g. "Sorry for the ink" has several meanings, but the nearest one to "inhale ink" as listed by Google is "give yourself a tattoo". If you don't realize you're trying to inhale ink it may come out as "I give myself a tattoo". Another example I gave in a comment is "I was singing in my car and I drove off the road". Singing is like "stuffing" the car with one's voice; it takes some time to "inhale ink" or "stuff" the car with that; it's the process we call "singing"
